2025-2026 Course Descriptions

EARLY CHILDHOOD

The following classes cover two semesters. Each student is required to bring their own school supplies, if applicable. A detailed supply list will be provided in each class syllabus from the teacher before classes begin. Please note that all class fees are per student and per year.

Nursery and Toddler (Infant to 3 yrs. old)

Student Fee \$10.00 for children 18 months – 3 yrs. old

Our Nursery and Toddler rooms are a welcoming and safe environment. Children play and explore all three class periods. Activities, story-time, and time for snacks are provided for those that are old enough to participate. Parents should bring a diaper bag that includes everything their child needs for the day.

Pre-K (3 and 4 year olds)

Student Fee \$25.00

This class focuses on the principles of respect, responsibility, and community through exploration and discovery. Using the My Father's World preschool curriculum, Voyage of Discovery, the children learn in a loving and enriching environment. Children are encouraged to learn and play as their interests lead them as well as join in structured group activities. Group activities include crafts, art projects, music, movement, and story-time.

Children are welcomed into the classroom when their developmental growth enables them to participate safely with the group and the classroom. Children need to be either potty trained or wear pull ups/diapers during class. Though this is not a traditional preschool class setting, children will have plenty of opportunities to learn new skills as they develop into more independent learners.

Kindergarten (students need to be 5 years old by 9/19/25 to enroll in classes)

Student Fee \$35.00

1st Period God's Creation from A to Z – During this class time students will explore the beauty of God's creation while learning about all things Kindergarten. Using the My Father's World Kindergarten curriculum as the spine of the class, students will enjoy literature and art activities.

2nd Period Movement – This class period is all about sparking creativity and movement. Join us for a time of using our imaginations and moving our bodies. Children will learn through team work and individual play with activities and games led by the teacher.

3rd Period The World Around Me – In this interactive science class, students will begin to understand science and the methods we use to explain it. Along the way, students will learn of the greatness of God and His amazing creation. This class will be using Master Books, Adventures in the World Around Me, as a guide for topics and activities.
